EXPERIENCE

Founder, Content Creator and Animator | **AKVerse (YouTube and Instagram), Jaipur** — **Dec 2024 – Present**

YouTube channel ↗

- Grew a creator brand to 21,000+ YouTube subscribers and 4,500+ Instagram followers with storytelling-led long-form and short-form video.
- Created original content series (Kaleshi Family mini-drama, Dr Lodha reels) inspired by Panchayat and TMKOC, writing Hinglish scripts with hooks, cold opens, and cliffhangers to lift audience retention.
- Wrote a full SEO pack for every upload (titles, descriptions, tags, hashtags) to improve search discoverability on YouTube and Instagram.
- Built an AI-assisted production workflow (script, image, video, captions, After Effects, Premiere Pro) and automated YouTube Shorts with Claude API, edge-tts, Blender, and FFmpeg, shortening the publishing cycle.
- Designed the brand's visual identity: 3D Blender dioramas, recurring characters, animated title cards, and thumbnails; published 3D asset packs on Sketchfab.

Founder, Product and Growth | **Arthis Technologies (ARTHIS.space, Arthis.Land), Jaipur** — **Jun 2026 – Present**

arthis.space ↗ | arthis.land ↗ | GitHub ↗

- Led brand, launch, and growth for ARTHIS.space, a swipeable feed of 70+ browser games, scaling it from 1 to 10,000 daily active users.
- Launched Android and iOS apps with a short-video style game feed built for engagement and session length, monetized with AdMob.
- Planned and ran promotional campaigns for ARTHIS.space, tracking traffic and engagement with Google Analytics and Search Console.
- Created a consistent visual identity across 70+ games with a 2-colour key art system producing 3 story banners and a logo per game using ComfyUI.
- Managed brand decisions across 3 products, including app renames (Dotspace, DotLand), launcher icon redesigns, and a trademark-safe game rename.
- Built product landing and download pages for both websites and prepared them for Google AdSense; turned own GitHub contribution graph into a playable game as a personal-brand hook.

Backend Developer Intern (AI) | **Clymora, Jaipur** — **Jan 2026 – Jun 2026**

- Shipped 6 AI-powered API features used by 4,500+ users at 99.8% uptime, working in a 4-person Agile team.
- Cut response time by 40% while handling 9,000 peak daily requests, building a data-driven, performance-first approach to marketing technology.

EDUCATION
