AAYUSH KUMAR

Game Developer | Unity (C#) | HTML5 and WebGL | Real-Time Multiplayer

aayushkumarofficial21@gmail.com | +91 98290 92369 | linkedin.com/in/aayush-kumar-872ab1323 | github.com/itsAayush2004 | itsaayush2004.github.io/portfolio | Jaipur, Rajasthan, India

SUMMARY

Game Developer with a B.Tech from NIT Jaipur (2026) who has shipped 70+ HTML5 single- and multiplayer games and grown ARTHIS.space to 10,000 daily active users. Builds gameplay in Unity (C#), Three.js/WebGL and 2D Canvas, wrote a real-time multiplayer relay server (TCP and WebSocket) for Unity clients, and ships to web, Android and iOS. Also a 3D artist and tools programmer (28 Blender Python add-ons) with backend experience in Python and FastAPI.

TECHNICAL SKILLS

Engines and Graphics: Unity, C#, Unity WebGL, Unreal Engine, Three.js, WebGL, HTML5 Canvas, Blender, Blender Python API

Gameplay: Gameplay programming, game design, game mechanics, rapid prototyping, procedural generation, physics, casual and mobile games

Multiplayer and Backend: Real-time multiplayer networking, WebRTC, PeerJS, WebSocket, TCP, Python, FastAPI, Node.js, Supabase, PostgreSQL

Platforms: Web, Android, iOS, React Native (Expo), Google AdMob, performance optimization for low-end devices

Languages: C#, C++, JavaScript, TypeScript, Python, SQL, HTML, CSS

Fundamentals and Tools: OOP, design patterns, data structures and algorithms, Git, GitHub Actions, CI/CD, debugging, AI tools (Claude, Ollama, ComfyUI)

EXPERIENCE

Founder and Game Developer | Arthis Technologies, Jaipur **Jun 2026 – Present**

arthis.space | arthis.land | github.com/itsAayush2004/arthisland-relay

- Shipped 70+ HTML5 single- and multiplayer games (Three.js, 2D Canvas, WebRTC) on ARTHIS.space, a swipeable game feed that grew from 1 to 10,000 daily active users.
- Wrote a zero-dependency real-time multiplayer relay (TCP and WebSocket) in pure Python, hosting 2–4 player rooms for Unity clients.
- Built Arthis.Land, a metaverse with a Unity WebGL viewer that loads .glb rooms at runtime inside a React and Vite site, with CI/CD on GitHub Actions.
- Published Android and iOS apps in React Native (Expo) with a live game-preview feed and AdMob ads, tuned for low-end devices.
- Secured 78 games with a zero-cost 5-layer protection pipeline (obfuscation, AES-GCM encryption, Cloudflare Worker keys, WebAssembly VM).
- Built a multi-agent AI gameplay generator (build, score, fix loop) on Claude and Ollama, and gave all 70+ games one visual identity with ComfyUI logos and banners.

Freelance 3D Animator and Tools Developer | AKVerse, Jaipur **Dec 2024 – Jan 2026**

youtube.com/@AKVerseOfficial

- Developed 28 Blender Python add-ons (lip-sync, camera rigs, IK posing, render automation) that replaced frame-by-frame manual animation.
- Built low-poly 3D dioramas, characters and props for a 21,000+ subscriber YouTube channel, and published 3D asset packs on Sketchfab.

Backend Developer Intern (AI) | Clymora, Jaipur **Jan 2026 – Jun 2026**

- Shipped 6 production REST API endpoints in async FastAPI serving 4,500+ users at 99.8% uptime.
- Cut API latency by 40% with concurrent request handling, sustaining 9,000 peak daily requests.

PROJECTS

- **HexaBed** (Unity, C#): Built a procedural hex-grid terrain generator with GLB asset placement that removes manual level layout.
- **3D Portfolio and TravelAtlas** (Three.js, WebGL): Built a scroll-driven 3D gallery portfolio, an interactive 3D globe of 30+ travelled places, and turned my GitHub contribution graph into a playable game. itsaayush2004.github.io/portfolio

EDUCATION

B.Tech, Electronics and Communication Engineering | Malaviya National Institute of Technology (MNIT, NIT Jaipur) **2022 – 2026**

JEE Advanced: AIR 8956 | JEE Main: 98.9 percentile | Class XII: 86.7% | Class X: 90.4%
